

DNP

CO-SUPPLIER OF THE YEAR

The DNP Co-Supplier of the Year award recognizes a valued partner who goes above and beyond in their collaboration with our team. This honor is awarded to a co-supplier that demonstrates outstanding commitment through consistent referrals, engagement in co-branded promotions, and active technical collaboration. Nominees are evaluated not only on performance, but also on alignment with DNP's values of innovation, partnership, and customer success. This award is our way of celebrating suppliers who help us—and their customers—thrive.

SELECTION CRITERIA:

CUSTOMER REFERRALS

Know someone who needs thermal transfer ribbons? Refer them to DNP—we'll make sure they have everything they need to print with confidence.

CO-PROMOTIONAL ACTIVITIES

Whether it's an social media post, print samples for trade shows, or website whitepapers, DNP is eager to collaborate with our co-suppliers.

TECHNICAL COLLABORATION

Let our experienced Product Support team help you navigate UL Certifications, product recommendations, or troubleshooting.

Co-suppliers are evaluated according to defined criteria throughout the calendar year, with awards presented in January.

Thermal Transfer Ribbons **Ready for Anything.**

Your Preferred TTR Provider

DNP Imagingcomm America has proudly manufactured thermal transfer ribbons in the United States since 1995. Our unwavering commitment to excellence and innovation has firmly established us as a global leader in this industry. Our dedication to excellence shines through in every customer interaction as we strive to understand your specific needs and provide tailored solutions that meet your exact requirements. Whether it's addressing technical inquiries, ensuring swift turnaround times, or sharing valuable insights, we are committed to supporting you at every stage.

It is important to know what information is needed when recommending a thermal transfer ribbon. DNP simplifies this process by providing **3 key questions** to ask your customer, so you can confidently recommend the right ribbon.

1

It's important to match the ribbon to the label. Make sure to ask about the label material and its size before making a recommendation.

2

Understanding the application is necessary to recommend a thermal transfer ribbon with the appropriate durability.

3

Ask your customer to provide the printer make and model so we can recommend the correct ribbon size and configuration.

Let DNP assist you with thermal transfer ribbon sales, ribbon recommendations, application testing, and more! Contact us today to expand your TTR sales

V4085plus Versatile Resin-Enhanced Wax

Technical Datasheet March 2025

RIBBON PROPERTIES

Base Film Thickness	$4.5 \pm 0.3 \mu$
Ink Thickness	$3.2 \pm 0.2 \mu$
Total Thickness	$7.7 \pm 0.5 \mu$
Transfer Temperature	150°F / 66°C

PRINTER SUBSTRATES

- Coated Face Sheets
- Coated Tag
- Gloss Sheets
- Polyethylene
- Polyolefin
- Polypropylene
- Uncoated Face Sheets
- Uncoated Tag
- Vinyl (Topcoat)

CERTIFICATIONS

- FDA Indirect Food Contact
- REACH Compliant
- RoHS Compliant
- UL References:
 - » FLEXcon: PGJ12.MH16635

PRODUCT FEATURES

Versatility Series

- Ideal for a wide range of applications and substrates, this ribbon is designed to be Ready for Anything.

Industry Leader

- For over two decades, our wax has been the trusted choice for top-tier performance, consistently setting the benchmark for quality and reliability.

Quick and Uniform Melting

- Optimizes the printing process with its high concentration of carnauba wax.

INDUSTRIES & APPLICATIONS

- Fashion & Textiles
- Food & Beverage
- Inventory & Logistics
- Medical & Healthcare
- Personal Care
- Pharmaceutical & Supplements
